

# Downspout Hanger [SR-HANGER-KIT]

For use with Warmup WSR Self-Regulating Cable

[Non-hazardous Locations]

## Secure Cable Fastening

Designed specifically to hold Warmup's WSR Self-Regulating Cable firmly in place at the top of downspouts using supplied zip ties.

## Mechanical Protection

Downspout Hangers protect Warmup's WSR Self-Regulating Cable from sharp edges, preventing cable damage.

## Durable Construction

Made from robust aluminium to withstand outdoor conditions, ensuring long-term reliability in harsh weather.

## cCSAus Certified

Guarantees compliance when used with WSR cable.

## Overview

Warmup's Downspout Hangers are used to provide mechanical protection to Warmup's WSR Self-Regulating Cable as it traverses over sharp edges and also to hold the cable in place at the top of downspouts in roof & gutter applications.

The Downspout Hangers are secured to the WSR cables using the supplied zip ties. If required the Downspot hanger can also be used as a spacer when the WSR is installed in a gutter.

The Downspout Hanger Kit is cCSAus approved for non-hazardous locations only when used with Warmup's WSR Self-Regulating Cable. To maintain cCSAus compliance, only Warmup approved accessories may be used with WSR Self-Regulating Cable. Refer to the Part Numbers page for guidance.
